

Paragliding/Parapente

LES GRANDS MONTETS

170€ per person (2200m vertical descent)

An incredible flight that allows you to fly next to the Drus, above the Mer de Glace viewing the Grand Jorasses and the Italian border. The launch is from a gentle sloping glacier facing the Mer de Glace and the Chamonix Valley.

As the launch is on a snowy glacier, albeit a rather benign one, French law obliges the pilot to employ a mountain guide (included in the price) so that you can traverse the glacier without risk.

Along with the Aiguille du Midi flight, this is undoubtedly one of the most dramatic lift served flights in the French Alps, one you will vividly recall every detail of in years to come!

~~~~~

**Flight time:** approximately 30-45 minutes (*depending on weather conditions. Please note sometimes the flight time is brought forward by an hour due to weather.*)
